### 5. **COMMERCIAL SUBSTANTIATION OF THE MERGER**

The Banks belong to the same capital group, i.e. BNP PARIBAS Group. The Management Boards of the Banks consider the Merger as a positive step towards the consolidation of the banking business of BNP PARIBAS Group in Poland within one entity.

Both BGZ and BNPP Polska are relatively small participants in the large Polish banking sector. The Merger will bring together two complementary entities and will create a larger, medium-sized bank with a critical mass enabling better performance and an adequate market position to face the high level of competition in the Polish banking sector. The Merged Bank will reach approximately 4% market share, positioning the Merged Bank as the 7th largest bank in Poland in assets.

The aim of the Merger is to preserve both Banks' strengths and expertise, and to develop further a fully-fledged universal bank with activities balanced between the retail and corporate businesses. As a result of the Merger, the Merged Bank will enjoy a large nationwide branch

network with a strong presence in medium-sized and small cities, as well in larger cities, and a digital platform.

In retail banking the Merged Bank will have a comprehensive offer addressed to all segments supported by strong consumer finance expertise available through the branch network, the digital platform and also through external partnerships. Furthermore, the expertise of BNP PARIBAS Group in wealth management will reinforce the development of this activity in the Merged Bank.

In corporate banking, the Merged Bank will benefit from a diversified franchise with a leading market share in the food & agro segment, with multinational firms in Poland and an expanding presence in Polish mid-caps and SME segments. The Merged Bank will offer a wide range of transactional and financing solutions of the highest standards, leveraging on the global capabilities of BNP PARIBAS Group and its unique worldwide network of corporate centers.

Furthermore, the Merger will enable further advancement of the Banks' current market positions through sustainable, enhanced growth as well as continuous improvement of the Merged Bank's profitability thanks to the expected synergies driven by complementarity, scale and process excellence enabled by the Merger.

## **6. RATIO OF EXCHANGE OF BNPP POLSKA SHARES TO BGZ SHARES**

### **6.1. Share Exchange Ratio**

<b>BGZ Shares</b>	<b>BNPP Polska Shares</b>
<b>5</b>	<b>6</b>

### **6.2. Methods used to calculate the Share Exchange Ratio**

The Share Exchange Ratio was calculated using generally accepted methods of valuation. For the purpose of the valuation it was assumed that the Banks operated as independent businesses. The key valuation method used included the discounted cash flow method supported by the use of market multiples. With respect to both Banks, the models used in the valuation were based on the assumption that, barring the Merger, the Banks would continue independently as going concerns. The Management Boards determined the Share Exchange Ratio after having reviewed the results of the valuations of BNPP Polska and BGZ.

### **6.3. Opinions of external financial advisors**

In preparing the valuation of the Banks and determining the Share Exchange Ratio, the Management Board of BNPP Polska has taken into consideration the opinion, dated 9 October 2014 it received from Citigroup Global Markets Limited as to the fairness, from a financial point of view and as of such date, of the Share Exchange Ratio to the BNPP Polska shareholders. In determining the Share Exchange Ratio, the Management Board of BGZ has taken into consideration the opinion it received from PwC Polska Sp. z o.o. as to the fairness, from a financial point of view, to the shareholders of BGZ, of the proposed Share Exchange Ratio.
